

Command 915 - Mode, Trigger, Parameter

Command 915 sends a unique RS232 string to the computer upon detection of a Trigger. This command instructs about Mode, Trigger, and other parameters.

Command 915 is an extremely way to detect exactly what goes on in the TT455-RT-238. Can be used for example as trigger in the Masterlink Gateway.

The command follows the normal protocol.

If you are interested in receiving command 915 into your customized computer program, then please contact LinTronic for a complete list of Mode and Trigger numbers.

These numbers are also available in the Memory Map in Number mode.
See next page.

TRIGGERTEXT

The screenshot shows the MemoryMap software interface. At the top, there are tabs for NotePad, PDF, BEO5.PDF, BEO4-NAVI.PDF, and Log. The main title is "RemoteControl: Bang and Olufsen - CodeSet 701" and the project name is "MYFIRSTPROJECT". Below this are tabs for RemoteControl, Project, MemoryMap (selected), Settings, and Input/Output.

In the MemoryMap tab, there are several sections:

- Controller:** A dropdown menu showing "BEO4 NAVI".
- Mode:** A dropdown menu showing "A.AUX".
- Trigger:** A dropdown menu showing "0".
- Convert to / control Action:** A table with columns BrandName, Device, and TypeNumber. It contains one row: SONY, TV, KV-29FX20E.
- Command:** A dropdown menu showing "0".
- Buttons:** "Remove product from project", "Add product to project", "Add to Memory Map", and "A".

Below these sections is a large table with columns: Line, Controller, ModeText, TriggerText, BrandName, Device, TypeNumber, and Command. It contains 7 rows of data, with the last row highlighted in red.

Line	Controller	ModeText	TriggerText	BrandName	Device	TypeNumber	Command
1	BEO4 NAVI	TV	0	SONY	TV	KV-29FX20E	0
2	BEO4 NAVI	TV	1	SONY	TV	KV-29FX20E	1
3	BEO4 NAVI	TV	2	SONY	TV	KV-29FX20E	2
4	BEO4 NAVI	TV	3	SONY	TV	KV-29FX20E	3
5	BEO4 NAVI	TV	4	SONY	TV	KV-29FX20E	4
6	BEO4 NAVI	TV	5	SONY	TV	KV-29FX20E	5
7	BEO4 NAVI	TV	6	SONY	TV	KV-29FX20E	COPY OF CH...

At the bottom of the interface are several buttons: "Save to TT455-RT-238", "Controllers List", "Products List", "Installers List", "Text / Numbers" (highlighted with a red arrow), and "Test".
